Students in Katie Cisco's kindergarten class from the Community School, AKA, "the Dolphins," learned about the art of pizza making from Chef, Brian Cynkar, at Wildlife Brewing and Pizza in Victor on Monday. They then went on to make their own personal pizzas. "This was a first for wildlife too," said photographer and Wildlife server, Lauren Starcevich. "The kids have been learning all this week about food and have been taking field trips out to local eateries such as 460 Bread and next, Kate's Real Food."
